2. Slatwall

Description

Aluminium structure anodized

Slat walls panels

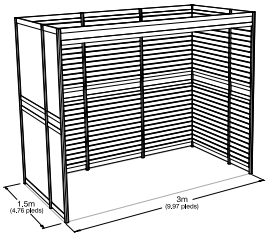
- Black
- White
- Maple

Grey carpet

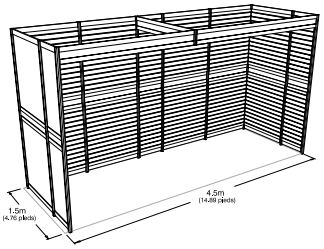
1 lighting rail 3/120w

*** 5' x 20' = 2 rails**

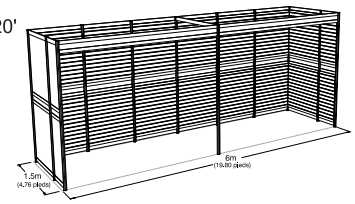
5'x10'



5'x15'



5'x20'



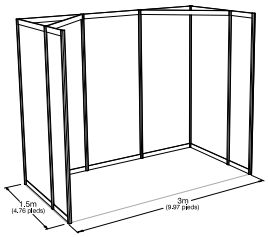
3. White vinyl panels

Description

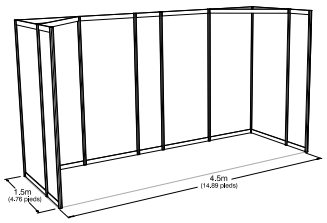
Aluminium structure anodized

White fibrex panels

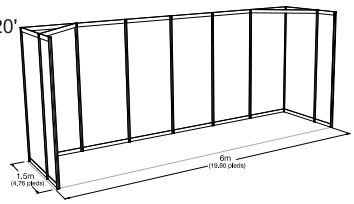
5'x10'



5'x15'



5'x20'



IMPORTANT

The rented surface is calculated in feet. The stand is built using the metric system. Therefore there is a difference (see graphics).

To cover up the panels surface you may strech the fireproofed fabric from the top and insert it in the aluminium structure.

Hanging can be done from the top rail with hooks & chains, wires or others.

Not to be done

Please take care not to damage those panels or any equipment. You will be charged 200$ for any panel you spoil.
